# REPORT

OF THE

## DEPUTY POSTMASTER GENERAL

### 1913-1914

POST OFFICE DEPARTMENT,  
OTTAWA, November 16, 1914.

To the Honourable

THOMAS CHASE CASGRAIN, K.C., M.P.

Postmaster General of Canada.

I have the honour to submit for your consideration the several statements annexed hereto, comprising the report for the year ending March 31, 1914. These statements show that there has been a very considerable expansion both in the service and in the transactions of the Post Office during the year.

The main points of increase are as follows:—

In the number of Money Order Offices, an increase of . . . . . 350

" Savings Bank Offices, an increase of . . . . . 38

There has been an increase of 913 miles in the extent of the system over which mails are carried by railway. The number of miles which mails have been carried by railway and water routes, and ordinary land routes is greater by 4,278,257 miles than it was for the year before.

The estimated increase in the number of letters and post cards sent during the year is 43,519,000, which is about  $6\frac{1}{2}$  per cent more than the figures of 1913.

The number of Rural Mail Delivery Routes has been increased by 940, and over 48,000 boxes have been erected on these additional routes.

Owing to the growth of the service in the directions mentioned, the expenditure has increased by \$1,939,253.87 as compared with last year, but there was a surplus from the operation of the service which amounts to \$134,157.98.

*Establishment of Parcel Post in Canada.*—The arrangements for a Parcel Post Service providing for the transmission within the Dominion of parcels up to eleven pounds in weight, which was authorized by Parliament at the close of the Session of 1912-13, were completed, and this Service was inaugurated on the 10th February, 1914.

*Reduction of Parcel Post Rates between Canada and Australia*—Dating from the 1st January, 1914, the rate of postage on parcels sent from Canada to all parts of Australia (including British New Guinea (Papua) and Norfolk Island) has been fixed

5 GEORGE V., A. 1915

at 24 cents for a parcel not exceeding one pound in weight and 12 cents for each additional pound or fraction of a pound, and a similar rate—namely one shilling for a parcel not exceeding one pound in weight and 6d. for each additional pound or fraction of a pound.—applies to parcels sent from Australia to Canada. The former rates were 24 cents from Canada, and one shilling from Australia, for each pound or fraction of a pound.

## PACIFIC CABLE TRAFFIC.

*The Cable Traffic between Canada and Australia and New Zealand by Pacific Cable.*—(Canada's relations with which are under the control of the Postmaster General) amounted to 547,372 words during the fiscal year.

Of this number, 398,349 words were comprised in deferred cable messages sent under the arrangements for deferred cable messages at reduced rates, which were introduced on the 1st January, 1912.

## RURAL MAIL DELIVERY.

The growth of this Branch of the Service has been steady. During the year ended 31st March, 1914, no less than 940 more routes were established, on which over 48,000 boxes have been erected. A comparison with the growth during the year ended 31st March, 1913, when 600 routes were established, and 22,250 boxes erected, shows an increase of over 50 per cent in the number of routes established, and an increase of over 100 per cent in the number of boxes erected.

## POSTAGE STAMPS.

The issue for the year 1913-14 shows a very satisfactory increase over that of the previous year.

In value the increase was \$510,214.47, the total amount of the issue being \$14,623,142.10, as against \$14,112,927.63 for the fiscal year ended 31st March, 1913.

During the year the demand for stamps in rolls has increased from month to month, thus showing the appreciation of the commercial public for stamps in this form, which affords a convenient and expeditious method of dealing with large mailings.

The one-cent stamp book issued for the first time in May, 1913, has met with increasing favour and is filling a general need.

Detailed statements are given in Appendix J.

## GOVERNMENT ANNUITIES.

During the fiscal year ended 31st March, 1914, 75 Immediate Annuities and 244 Deferred Annuities, amounting to \$20,222.97 and \$66,334.74 respectively, were purchased, and the amount of purchase money received during the same period was \$390,886.71.

## SESSIONAL PAPER No. 24

\* Though a reduction is shown in the number of Post Offices in Ontario, Quebec, Nova Scotia, New Brunswick and Prince Edward Island, there were 69 new Post Offices opened in Ontario, 110 in Quebec, 38 in Nova Scotia, 25 in New Brunswick, and 4 in Prince Edward Island. Owing, however, to the large number of Post Offices in these Provinces rendered unnecessary by the establishment of Rural Delivery, the number of offices closed exceeded the number opened.
